Health and Medication Monitoring Services

The pharmacy students at Auburn University Harrison School of Pharmacy would like to offer their services to the community. These FREE services are available to you:

- Blood pressure and blood sugar checks between doctor visits
- Medication & medical device training (insulin, glucometers, pill boxes, pulse oximeters)
- Diabetic foot exams
- Assistance with understanding and following medication schedules
- Additional information about medications, side effects and health information
- Caring students who will meet with you at your residence and listen to your health concerns
- An opportunity to share your knowledge to affect the life of a motivated professional pharmacy student

In addition to the pharmacy students we also have a social worker to assist with linkage to needed community resources able to assist with finances, VA benefits, & in home support services.

Participant Qualifications:

- Have a chronic medical condition or conditions that require the use of multiple prescription medications
- Be at least 18 years of age or have parent or guardian’s consent
- Be willing to discuss your health condition(s) and medications with student pharmacists
- Able to commit to participating on an ongoing basis (receive multiple visits)
- Live in the Auburn/Opelika area or willing to be seen on campus

If you would like to be visited by a student pharmacist, or learn more about this program, please contact:
