EXPERIENCE

Auburn University Harrison School of Pharmacy at the State Wellness Center 4/15/16 to Present Family Nurse Practitioner

Provides general medical care to acutely ill patients for the State Employees Insurance Board at the State Wellness Center. Performs physical examinations, orders and interprets diagnostic tests, and formulates a treatment plan. Assesses patient's wellness and health care needs and provides a comprehensive health management plan. Discusses patients care in a collaborative relationship with physicians and pharmacists. Precepts, advises and instructs residents and students on primary care in advanced clinical education courses. Participates in Pharmacy Health Services and HSOP meetings and events as directed and contributes to the development, implementation, and expansion of pharmacy health services, programs, and initiatives.

American Family Care

4/1/15 to 6/3/17 Family Nurse Practitioner

Performs comprehensive history and physicals, formulates medical and nursing diagnoses, plans and initiates therapeutic treatments, to include emergency treatments, and interprets and analyzes patient data. Skills include: biopsy of lesions, suturing lacerations, debridement of wounds, incision and drainage of lesions, foreign body removal, and xray interpretation. Provides care for an average of 60 patients daily. Certified Medical Examiner for the Department of Transportation.

Boehringer-Ingelheim Pharmaceuticals, Inc.

8/2009 to 5/1/15 Clinical Science Consultant

Served as the scientific arm of the respiratory and cardiovascular sales force to improve diagnosis, intervention and management of Chronic Obstructive Pulmonary Disease (COPD) and Atrial Fibrillation. Provides clinical education and updates to Primary Care Providers (HCP) on COPD and AFIB disease states. Independent management and market expansion of the South/Central Alabama territory. Analyzes territory information to optimize HCP calls. Work closely with other BIPI representatives to improve HCPs treatment of appropriate patients. Develops plans to maximize market development programs. Achievements: Bronze Presidents Club Winner 2010, Tier 1 and Tier 3 winner in "Exacerbate the Competition" Contest in 2010. Changed diagnostic behaviors through incorporation of the Population Screener, and performing spirometry in-services in offices in territory. Expanded-market use of anticholinergic therapy for COPD.
