## VII. TEACHING EXPERIENCES

### Teaching Responsibilities

Teaching responsibilities include the training and supervision of graduate teaching assistants.

**PYPD 9370: Longitudinal Learning Experience VI (2020 – Present)** – 3 credit hour  
Required course for PharmD students. Served as an instructor. This course allows students to review existing peer-reviewed literature and apply them into a new pharmacy practice context.

**PYPD 9360: Longitudinal Learning Experience V (2019 – Present)** – 3 credit hour  
Required course for PharmD students. Served as an instructor. This course provides an overview of personnel management, inventory management and business planning.

**PYPD 9340: Longitudinal Learning Experience III (2018 – Present)** – 3 credit hour  
Required course for PharmD students. Served as an instructor. This course provides an overview innovative services and reimbursement methods.

**PYPD 9320: Longitudinal Learning Experience I (2017 – Present)** – 3 credit hour  
Required course for PharmD students. Served as an instructor. This course provides an overview of the U.S. healthcare system.

**PYPD 9330: Longitudinal Learning Experience II (2018)** – 3 credit hour  
Required course for PharmD students. Served as an instructor. This course provides an overview of the public health functions and the roles of pharmacists.

**HORP 7820: Research Methods in Health Sciences I (2012 – Present)** – 2 credit hour required graduate course and elective course for PharmD students. Served as coordinator and instructor. The course is designed to provide a comprehensive introduction to the primary research methods used in clinical and health services research.

**HORP 7510: Health Services Delivery and Evaluation (2011 – 2015; 2019).** 3 credit hour graduate course. Offered one in every two years. This course provides an introduction to basic methods and frameworks for undertaking research and program evaluation within health services organizations and systems.

**HORP 7520: Introduction to Social and Behavioral Theory in Health (2012 – Present)** – 3 credit hour. Required course for graduate students. Served as an instructor. This course provides an overview of theories in social and behavioral research.

**PYDI 9210: Pharmacy Practice Management, Development, and Evaluation I (2006 – 2017)** - 3 credit hour required professional course, average enrollment 140-150 second-year pharmacy students. Served as course coordinator and instructor. This course focused on the health care system and operations management.

**PYDI 9310: Pharmacy Practice Management, Development, and Evaluation II (2006 – 2018)** - 3 credit hour required professional course, average enrollment 140-150 second year pharmacy students. Served as instructor for a topic in change management. This course focused on marketing, human resource management, finance and accounting and informatics.

**PYDI: Pharmacy Practice Experiences I-IV (2004 – Present)** – 1 credit hour required professional course, average enrollment 15 students per team. Served as faculty mentor. Worked in collaboration with a clinical faculty member and discussed patient cases with students in the team.

**PYPC 7900: Special Problems-Organizational Theories as applied to Pharmacy and Healthcare Organizations (2006 - Present)** – 3 credit hour graduate course. Offered on case-by-case basis. This course focused on innovation adoption and organizational theories.

**PYPC 7870: Social, Behavioral and Administrative Aspects of Pharmacy Practice (2009 - 2011)** – 3 credit hour required graduate course, average enrollment 5-7 students. Served as course coordinator and instructor. This course provided an overview of research in social, behavioral and administrative pharmacy.

**PYPC 7830: Research Methods in Health Sciences II (2007 - 2011)** – 3 credit hour required graduate course, average enrollment 5-7 students. Served as instructor for this course for topics in survey methods and research in complex organizations.

**PYPC 5240: Pharmacy Care Systems III (Fall 2005)** – 2 credit hour required professional course, average enrollment 120 students. Served as course coordinator and instructor. This course focused on pharmacoeconomic and the health care system.

**PYPC 5140: Pharmacy Care Systems II (Spring 2005)** - 3 credit hour required professional course, average enrollment 120 students. Served as instructor for this course with Professor Bill Felkey who was the Course coordinator. The course focused on operations management, human resource management, informatics, and marketing.
